

Annual Reports :: Year 6 :: International Partners Introduction

Intl. Partners: International Partners Introduction

NAI has a partnership program with international astrobiology organizations to provide collaborative opportunities between NAI's researchers and the global science community. Foreign astrobiology organizations can propose to become either Associate (formal agreement between NASA and the foreign government) or Affiliate members (no formal government agreements) of the NAI. During Year 6, there were five international Associate or Affiliates:

[Astrobiology Society of Britain](#)

[Australian Centre for Astrobiology](#)

[Centro de Astrobiologia \(CAB\)](#)

[European Exo/Astrobiology Network Association, EANA](#)

[Groupement de Recherche en Exobiologie](#)
